PART - I

1. Translate the following passage into the language chosen (Hindi). (20)

Corona Virus in India

The Corona virus is pandemic disease, which originated in the city of Wuhan, China, has quickly spread to various countries, with many cases having been reported worldwide. As on May 8th 2020, in India, 56,342 positive cases have been reported. India with a population of more than 1.34 billion – the second largest populated country in the world –will have difficulty in controlling the transmission of severe acute respiratory syndrome corona virus 2 among its population. Multiple strategies are

[P.T.O.]
